

# PLANNED PARENTHOOD IS NOT A FRIEND TO WOMEN.

- 1 A friend would not put profit over care.
- 2 A friend would not put profit over safety.
- 3 A friend would not hide positive STD tests.
- 4 A friend would not mislead.

Across America, breast cancer services at Planned Parenthood are down 39%. Their prenatal services are down over 50%. And not one mammogram is provided in the clinics. However, Planned Parenthood abortions are at an all-time high - steadily over 320,000 each year.

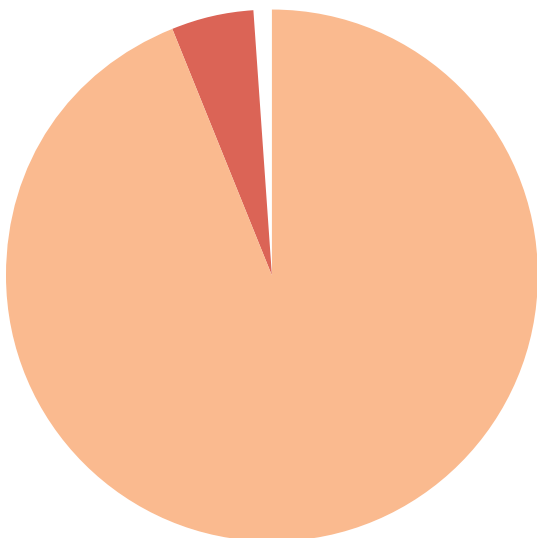

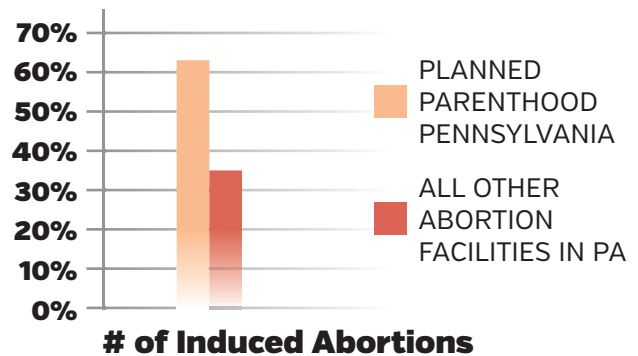

## Planned Parenthood is Big Business

Over their last three financial reporting cycles:

- Planned Parenthood's income totaled \$3.673 billion (with a "b").
- You - and every taxpayer - gave Planned Parenthood \$1.621 billion (again, with a "b") in government funding.
- And their profit equaled \$301.1 million.

**64% of all induced abortions in PA are performed by Planned Parenthood.**

## Planned Parenthood **Abortion. No Matter What.**

- 94% of Planned Parenthood's Services for pregnant women are abortions.
- Planned Parenthood employees are given an abortion quota to help "maximize their bottom line."

- ABORTION
- PRENATAL CARE
- ADOPTION REFERRAL
