

Planned Parenthood in Pennsylvania is treating fewer patients despite increased taxpayer funding.

Patients:

Annual clientele drop of over 24,000 (2013-2016)

Taxpayer Funding:

Last reporting cycle: up \$768,969 (15% increase)

Last four reporting cycles: over \$21 million in taxpayer funding.

Status of Services (annually)

STD testing:
down -52,000 (2014-2016)

Cervical cancer screenings:
down -3,000 (2014-2015)

Breast exams:
down -7,000 (2014-2016)

Abortions:
up +1,400 (2009-2015)

Prenatal Services:

- Zero Planned Parenthood facilities in PA offer prenatal care.
- Each facility previously indicated online that they offered prenatal services until PA Family Institute published the results of their investigation.
- Governor Wolf and other elected state officials still claim Planned Parenthood offers prenatal services in Pennsylvania.

2013

34

2017

25

1/3 of clinics have voluntarily closed since 2013.

Only 25 facilities covering 16 counties.

In contrast, there are over 300 Federally Qualified Health Centers covering 52 counties.

ZERO MAMMOGRAMS

ZERO MENTION OF ADOPTION REFERRALS

55% OF ALL ABORTIONS IN PENNSYLVANIA

There are better options that provide more comprehensive women's health care and are not in the abortion business. **Yes on SB300.**

SOURCES ON BACK.
