HELP WRITE THE NEXT CHAPTER OF THE PRO-LIFE MOVEMENT IN PENNSYLVANIA

How do we stop Pennsylvania from going the way of New York? Will Pennsylvania lawmakers pass extreme abortions laws that allow babies to be killed up until birth? The time is now to implement an effective and aggressive pro-life strategy that positions Pennsylvania as a state where life is protected and cherished. That's what Pennsylvania Family Council's one-day Life Action Conference is all about. Come hear from national and state experts to gain practical applications you can take towards accomplishing this goal. If you care about saving lives in Pennsylvania, this is a can't-miss training event.
